REV. SECT.
17 DEC 1921

Sir,

LB
103-2

I have the honor to state that the question of improving the Railway feeder roads in the District is being repeatedly pressed upon the attention of the District Board since the opening of the Mysore Arsikere Railway line. The District Board of Hassan feel unable to undertake all the works, at once, owing to lack of sufficient funds for the purpose and want of information as to the estimated cost of these roads. These roads require to be surveyed and estimates etc. got prepared for them. It is therefore the desire of the District Board that the preparing of the projects for the Railway feeder roads may be entrusted to the D.P.W. and as soon as the estimates are ready, to consider them and decide what roads they would undertake before asking for a contribution of half the cost from Government.

2. I therefore, request that the Government in the D.P.W. may be moved to issue needful instruction for the early preparation of estimates etc., for all the Railway feeder roads in this District.

2. Only 2 feeder roads are mentioned, viz.,

Ambuga Station Road 1 3/8 miles, Gorur Mavinker

Road about 7 miles. The former is estimated

to cost Rs 930 to put in order. The latter is

not yet surveyed. The grant of Rs 150/-

proposed for survey charges may be placed at

the disposal of the Executive Engineer and an

estimate will be prepared and submitted. Both

these works are comparatively small and it ----

should be within the resources of the District

Board to meet the entire cost. But as they

are contributing a large sum towards the cons-

truction of the Gorur Bridge, half the cost of

the Gorur Mavinkere Road may perhaps be met by

Government. The total cost of the road is not

likely to exceed Rs 14,000/-.

Sir,

With reference to your letter No. L. 4060/L.B. 103-21-2, dated 23rd January 1922, calling for some information on the question of improving the Railway Feeder Roads in the District, I have the honor to state that the matter was referred to a Sub Committee appointed by the District Board, consisting of the Executive Engineer of this Division, the Vice President of the District Board and the Sub Division Officer in charge of the Taluks of Arsikere, Channarayana, Hale-Narsipur and Arkalgud Taluks, who considered the matter in detail and arrived at the conclusion that to begin with the Railway Feeder Road from Gorur to Mavinkere Railway Station may be constructed, Government being pleased to contribute half the cost, as the possibility of Railway traffic being improved specially from south of Alur Sub Taluk and Hassan Taluk and North of Arkalgud Taluk are very promising. They also resolved that a sum of Rs 50/- might be placed at the disposal of the Executive Engineer, towards the survey charges.

This recommendation of the Sub Committee was accepted by the District Board, and as the Hassan Taluk Board could not prepare an estimate for want of levelling instruments, the Executive Engineer was addressed in the matter, in October 22.
